

Hard Floor

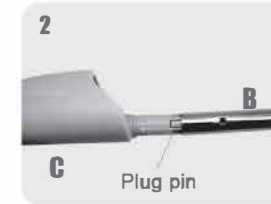

2-in1 Trigger Spray Mop with Microfiber Pad

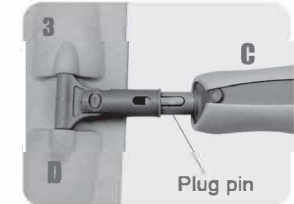

Assembly

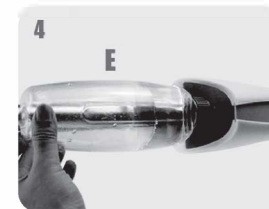

1. Put tube A into the plastic sleeve of tube B. Make sure the elastic ball is fixed into the hole of tube B.

2. Put the plastic rod of part C into tube B, make sure the plug pin on the plastic rod is fixed into the hole of part B.

3. Put the plastic rod of part C into mop board D, make sure the plug pin on the plastic rod is fixed into the hole of part D.

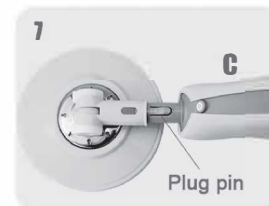

4. Put the bottle E into the bottle holder, ensure the bottle is securely fixed.

5. To operate, pull trigger by hand, water will spray onto floor for cleaning, release trigger to stop water spraying.

6. Before cleaning floor, put the microfiber mop head onto the small hooks on base of mop board D.

7. In order to fit the round mop plate*, make sure the plug pin on the plastic rod C is fixed into the hole of the round mop plate.

8. To fit a round mop head*, put the mop head on the ground then put the round plate onto the plastic part of the mop head and step onto the round plate to hear a "click" sound.

9. To remove the mop head, step onto the mop strands and push the mop pole away from your body.
